The Advisory Panel will review Framework 26 analyses and make final recommendations for preferred alternatives. The Advisory Panel will also make final recommendations on other measures being considered: (1) Measures to allow fishing in state waters after federal NGOM TAC is reached; (2) measures to make turtle regulations consistent in the scallop fishery and slight modification to regulations related to the flaring bar of the turtle deflector dredge; (3) measures to modify the existing area closure accountability measures in place for Georges Bank and Southern New England/Mid-Atlantic yellowtail flounder, and develop new accountability measures for northern windowpane flounder; and (4) consider measures to allow limited access scallop vessels to declare out of the fishery when steaming back to port. Other issues may be discussed.

Although non-emergency issues not contained in this agenda may come before this group for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), those issues may not be the subject of formal action during this meeting. Actions will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.
